

Re-TRAC for Universities & Colleges

Re-TRAC: A Data Management System for University & College Recycling Programs

Re-TRAC is a powerful web-based recycling and solid waste data management system. Use **Re-TRAC** to:

Compile, organize, analyze, and report on all waste collection and recycling programs on campus.

Prepare reports, at the click of a button, saving you hours and days of number crunching exercises.

Quickly assess the performance of your recycling program and identify areas for improvement and growth.

Learn More About Re-TRAC

Re-TRAC offers proven functionality and is quickly establishing a new standard in data management for universities and colleges.

Re-TRAC Saves You Time & Money

- ▶ Calculate monthly waste generation and recycling totals for your campus,
- ▶ Organize your data right down to the dumpster level,
- ▶ Generate instant summary reports that role data up by dumpster, building & campus wide,
- ▶ Prepare monthly & annual reports with a click of a button,
- ▶ Customize your data input screens,
- ▶ Analyze financial and program information by dumpster, dorms, academic buildings, or campus-wide, and
- ▶ Track tonnage of your recycling, solid waste, hazardous waste, organics and construction and demolition debris.
